Martin Peart
National Marketing Manager
Disc Brakes Australia

Dear Martin,

We started using DBA Slotted in 1998 for our Trackskill racing cars (VB – VH Commodores). Our cars are raced by hundreds of different drivers each year all with different abilities and they are certainly pushed to the limit. We have found with the DBA Slotted discs, hot spots and warping is no longer a problem. We are also impressed with the even pad wear we now achieve. We use high performance Ultimate disc pads that are normally hard on disc wear but with the DBA Slotted discs wear achieve up to 10 pad changes per disc.

Yours Faithfully
Gary Baxter
Director, Trackskill
